From the President

Greetings and a pleasant summer. The year has speedily progressed to this point. A half a year under our belts already. Let us enjoy this time of year while we can.

My respects for those who submitted a resume for the position of trustee. I look forward to working with the new board members.

There are many concerns within our village. A lot of these can be remedied by the people who disregard our Rules and Regulations. Let me just say the actions of the few are scrutinized by the many.

Some issues everyone can help with are (1) crush your cans and bottles (non-glass) before you put them out for recycle. (2) No branches in leaf bags and tie them up when you can. (3) Don't put branches or leaf bags out until the night before pick-up. (4) Don't put trash bags out the night before as animals can get into them.

Some people want the board to take action on these concerns. There are procedures in place to address these concerns. If you have a concern, please follow protocol. Don't blame the board for your own inaction. I assure you the board will do its part.

Again I want to thank all those who volunteer. Our many functions depend on their services. I am very appreciative of those who help with the food truck, Thank You. If you have some time please volunteer.

Thank You for allowing me to serve as your President. May everyone have a blessed summer.

The mouth of the righteous
is a fountain of life. But
violence overwhelms the
mouth of the wicked. Hatred
stirs up dissention, but Love
covers over all wrongs.

Wayne Koester
President Board of Trustees
Crestwood Village VI

Trustee kormer...

The food pantry truck was here Wednesday, July 8TH. Approximately 130 people received food. Our village is proud and glad that we can participate in this needy project.

The food truck will be here this August on Wednesday the 12th at 10 AM. Our volunteers will be on hand to help the people. Due to complaints of people grabbing and taking more than their share, the volunteers will give out the allotted amounts of food to each person in line. After all have been served, anyone wanting more may go back and get more. The pantry wants all the food to go. Suitcases and large plastic tubs will not be allowed. We recommend the use of shopping bags 30 x 18 be used. These bags are large and can hold a large load of food.

Respectfully
Ron Paluzzi VP trustees

As of July I have taken over the position of Treasurer, due to the resignation of Dominic Amoroso. This will not have any effect on the Village, as I have been the assistant treasurer and am up to par with the finances. I would like to thank the candidates who turned in resume's for the upcoming trustee election and I wish you all well and will look forward to working with whoever is elected. If you have noticed many orange cones throughout the village, we have had some major sink holes appear in the last few weeks. Swift Paving is now working on 11 different ones. We have allocated \$50,000 for road repairs. However, we may use a substantial part of that in our first month. We have a reserve of approx. \$300,000, but we are hoping to start building on that for future repaving projects.

As of this printing, we are still awaiting the attorney approval for the solar contract commitment letter. We, the BOT will be working on the Amendment Changes and hope to include them with the trustee elections, if voting machines are needed. We also plan on starting to review our Rules and Regulations to bring them up to current needs.

Dennis Switana, Treasurer

The Insurance Seminar was attended by about 40 concerned residents who learned a great deal about the umbrella policy that the Association carries and what their individual home owner's policy should contain. I would like to thank our representative from Wells Fargo Insurance Services, Doug Ewertsen, for taking the time out of his busy schedule to come and address the residents and answer the numerous questions that they had. I hope the refreshments met with every ones approval. As always, it is a pleasure serving all the residents of CV6.

Warning Warning Warning Warning

If you have a pet that you walk on our streets
the black asphalt roadway will be 10 to 15 degrees
hotter than the air temperature for the day. For
example, 90 degrees air temp = 105 degrees road temp.

If it is too hot for you to walk barefoot, it is too hot for your pet.

Why am I running for election as a Trustee again?

My wife and I came here in April 2003, since then we have made many good friends and acquaintances. We truly like it here because of the area and the people in our village and the other surrounding villages, it truly is a nice place to live and enjoy life. I have lived here in the Village a lot less than most of you, and a little more than some of you, I came here in 2003, looking for a better quality of life, and to join a community where I would have good fellowship, new friends and have an enjoyable time. Being a trustee for the past six years and deeply involved in the things concerning our Village has been an enjoyable experience. Working with the residents and the other trustees we have been moving our Village forward in all things. As a trustee I have been directly involved with decisions and new activities for our residents to enjoy. I have actively participated in many projects concerning our Village always keeping in mind the cost to our residents. In today's time it's extremely difficult with the economic conditions the way they are to keep our costs down. I have been working with my fellow trustees and doing just that. Too many things have been taken away from the residents and it is said that it is because of the times. Well, what the times do say is that we have to tighten our belts not spend so much money and still get things done in a timely cost effective manner. I feel we can do this by getting better bids on proposals of things we need to get done, and getting them completed in the same year.

Every resident in our Village has a right to know how, where and when their money is being spent I believe we have a lot of talented people in our Village, and we should be approaching them either for advice or help on projects that we intend to do, they have a lot to offer us. Our Village can certainly benefit from these people. We should have in our monthly newsletter, a list of things that were accomplished, projects that are being done and projects that will be done in the future. All of our residents deserve respect, and given the time at meetings to project their ideas and thoughts on different issues for our community. We all have a big stake in the Village's future, and things should be done right, and not just burden the present residents with excess costs. Everything is rising at a super fast pace, and people can handle just so much, especially since their income is not rising at the same pace. Because things were not done in the past does not mean we the current residents should bear the total burden of the future now. We do have to work on things now and save a little for the future projects. Do not let the present pass us by.

If reelected to the Board of Trustees. I will help to move this Village forward with new ideas while upholding our rules and regulations. I will be involved in ongoing projects and make sure they are done in a timely manor. I truly believe that everyone should be heard and his or her opinion does count. Together we can make this a better and outstanding place to live in and enjoy.

It's already time to start preparing for our Holiday Concert, which will take place on Saturday, December 12, 2015 (inclement weather date is December 19). LIBRARY-Happy Summer everyone. Hope you are enjoying it. We have an interesting selection this month. Two very different books by John Grisham-"Theodore Boone-Kid Lawyer" and "The Racketeer". Jane Haddams "Living Witness" is a mystery set in a small town in Pa. An elderly woman is brutally beaten and the Police Chief hires a former FBI agent to help solve the case. "Cypress Point" by Diane Chamberlain is a love story with a twist. Some love is doomed while some can survive anything. Last but not least we have Jenny Milchman's "Cover of Snow" a conspiracy in a small town that will keep you guessing until the end. *Mary Ann Keegan, Library Committee.*

WEDNESDAY BOOK CLUB-*Every gift has a price..every piece of lace has a secret.* Towner Whitney, protagonist in "The Lace Reader" hails from a family of Salem women who can read the future in the patterns of their hand-made lace. They also have carefully guarded secrets, going back generations. Now the disappearance of two important women in Towner's life bring to light the strange truth about Towner's connection to the death of her only sister. You can imagine that a lively discussion ensued after this intriguing read. We are now involved with "The Ditch Digger's Daughter". Come join us the 4th Wednesday of August. *Fran O'Connor 732-849-5728*

SAFETY PATROL- A big Thanks goes out to all the volunteers who assist with the garage sale and for the work for the Food Pantry Truck. Attention-there have been a few break-ins, so please be alert. Keep your doors and windows locked. If you see anyone that appears a bit suspicious call the police department at 732-657-6111. If you can, have an alarm system installed. Form a neighborhood watch in your area and keep your eyes open as these break-ins have happened in the day time. If you see anyone going into the woods, notify the police. Also, there has been a rash of phone calls from a bogus IRS. The IRS **NEVER** calls, they send you a letter. **DO NOT** give out any information over the

phone as they are scammers and they are seeking to steal your identity and your money. Just do not answer or if you do, just hang up. With warmer weather there are more garage doors left open so please remember to close them for your safety and to keep out the "critters". Our next meeting is scheduled for September 15. If you have questions or are interested in the Patrol, call Jane Messenger at 732-350-2350 or Rosalie Hartman at 732-716-0974. *Rosalie Hartman 1st Deputy Chief.*
